# PREFACE

Praise be to the presence of Allah SWT, to the abundance of His grace and grace so that the Journal of Nursing Practice Institut Ilmu Kesehatan STRADA Indonesia can be organized and resolved in accordance with the schedule in order to become a forum for the activities of the Tri Dharma College Indonesia.

The Journal of Nursing Practice is a journal published by the Editorial Team of Institut Ilmu Kesehatan (IIK) STRADA Indonesia. This journal serves as a forum for research results for the entire academic community both from within and outside the Institut Ilmu Kesehatan STRADA Indonesia, while the scope of this research focuses on nursing.

Quality and published research is also able to improve and develop knowledge, especially in nursing science in facing the global challenges of the ASEAN Economic Community (MEA).

We realize that this journal is far from perfection, so we hope for constructive advice and criticism.

Kediri, October 2019

Editor in Chief

Journal Of Nursing Practice

Heri Saputro, S.Kep., Ns., M.Kep
